

Press Release

Enhance the efficiency of distribution, storage, and delivery accuracy with Delta Electronics.

As Southeast Asia's PCB manufacturing industry continues its rapid expansion, manufacturers are under increasing pressure to enhance efficiency, accuracy, and scalability while keeping pace with growing global demand. Delta Electronics introduces the Smart Warehouse and Logistics Solution, an advanced automation system designed to optimize manufacturing from production planning to material handling, setting a new benchmark for smart factory innovation.

The solution addresses these challenges with a fully automated, AI-driven ecosystem that integrates **Manufacturing Execution Systems (MES)**, **Equipment Automatic Programming (EAP)**, **Material Control Systems (MCS)**, and **Automated Guided Vehicles (AGVs)**. Discover more how Delta Smart Warehouse and Logistic Solution enhances operational efficiency and sustainability: <https://bit.ly/DeltaSmartLogistic>. Visit Delta's booth no.8K11, Hall 98 at s at **Assembly & Automation Technology2025**, a part of Manufacturing Expo 2025, from 18 (Wednesday) to 21 (Saturday) June 2025, 10:00 AM to 6:00 PM, at BITEC, Bangkok. Interested visitors can pre-register and learn more about event details at www.assemblytechexpo.com. As this event is open to trade visitors only, please dress in business attire. Due to the presence of large machinery and potential sparks from live demonstrations, entry is restricted to individuals aged 15 and above. For further information, please contact +66 2686 7222 or email to contactcenter@rxtradex.com
